

Corruption - Indias Painful Crawl to Lokpal

Corruption - Indias Painful Crawl to Lokpal takes on the subject of corruption in India. It was the first book to comprehensively advocate the institution of the ombudsman to tackle it. This is a revised and updated version of the authors first book, which was published in 1966. Author John B. Monteiro surveys the causes, anatomy and dimensions of corruption, while detailing the existing machinery for the ventilation of grievances and the control of maladministration and corruption. This updated edition tracks Indias long, painful and elusive attempt to adapt the institution of the ombudsman for India, under the title Lokpal, and details how the political class sabotaged the Bill from being enacted. It includes research on institutions in America, Britain, France, and the then Soviet Union that have been used to control maladministration and corruption, examining their suitability for use in India. It also surveys the ombudsman institution working in the Scandinavian countries and in New Zealand, which he advocates for adaptation in India. Born in 1938, John B. Monteiro was raised and educated in Mangalore, a coastal city in Karnataka, India. He earned a masters in economics, political science and public administration from Bombay University. After a stint as lecturer at St. Aloysius College, Mangalore, from where he had graduated, he went to Bombay (now Mumbai) and got into journalism and, later, corporate communications. He now lives in Mangalore, continuing to write for print and electronic media, and his website, www.welcometoreason.com. Publishers website: <http://sbpra.com/JohnBMonteiro>
