

The Oxford Handbook of New York State Government and Politics (Oxford Handbooks)

New York remains the Empire State. Its trillion dollar economy makes the state a national-and often world-leader in banking, finance, publishing, soft services (law, accounting, insurance, consulting), higher education, culture, and the arts. With more than one in five of its residents having immigrated from elsewhere, New York State is an ethnic and social harbinger for an increasingly diverse nation. Recent years have found it, like many other big states, challenged to achieve effective governance. How is, can, or should such a state be governed? What is its history? What is its future? The Oxford Handbook of New York State Government and Politics offers an unusually comprehensive, detailed, and systematic study of this unique and influential state. The thirty-one chapters in The Oxford Handbook of New York State Government and Politics assemble new scholarship in key areas of governance in New York, document the states record in comparison to other US states, and identify directions for future research. Following editor Gerald Benjamins introduction, the handbook chapters are organized in five sections that look at the state constitution, state political processes, state governmental institutions, intergovernmental relations, and management and policy areas. Chapters address a wide array of topics including political parties, campaign finance policy, public opinion polling, elections and election management, lobbying and interest group systems, the state legislature, the governorship, the judiciary, the states foreign policy, education, health care policy, public safety, economic development, transportation policy, energy policy, and more. A final chapter, compiled by the state archivist, consists of a most extensive annotated bibliography of resources on state history, state political history, the state constitution, and state political processes. Chapter authors include

both scholars of New York State and current and former state officials.
